# AGENDA MEMORANDUM

**Meeting Date:** 6/28/2021

**To:** The Honorable Mayor Maria Puente Mitchell and Members of the City Council

**Via:** William Alonso, City Manager/Fin. Director

**From:** Zuzell E. Murguido, Procurement Specialist II

**Subject:** Congregate & Home-Delivered Meals for the City of Miami Springs Elderly Community  
- Award Contract

---

**RECOMMENDATION:** Recommendation by Finance- Professional Services that Council approve a Resolution (attached as Exhibit “B”) and award City RFP #01-20/21 to Greater Miami Caterers, Inc., the lowest and sole responsive-responsible bidder and authorize the execution of a contract (attached as Exhibit “C”), in the amount not to exceed \$236,920.20, for an initial (1) one year term period with the option to renew (5) four additional (1) one year term periods through 09/31/2027, for the Congregate & Home-Delivered Meals for the City of Miami Springs Elderly Community, as funds were budgeted in the 21-22 fiscal year budget pursuant to Section §31.11 (E)(1) of the City Code.

**DISCUSSION:** The city advertised a Request for Proposal (RFP) for Congregate & Home-Delivered Meals for the City of Miami Springs Elderly Community (a copy of this RFP is on file with the City Clerk’s Office) on May 17, 2021 through the Daily Business review, posted on DemandStar, as well as on the City’s web page and on the City’s message board located in the lobby. The City received one response from Greater Miami Caterers, Inc., (proposal attached as Exhibit “A”) in the amount of \$236,920.20. The response was evaluated by Zuzell Murguido, Procurement Specialist II, in accordance with the evaluation criteria set forth in the RFP, including the bidder’s qualifications/experience, references, and cost. A copy of the bid tabulation and ranking sheet are attached.

Greater Miami Caterers, Inc.’s proposal of \$236,920.20 includes congregare meals, home delivered weekday meals, and home delivered weekend meals. The cost of these meals are paid utilizing Older Americans Act (OAA) Program, Local Services Program (LSP) funds, and City funds. Currently, the Miami Springs Adult Community Center is not serving in person meals at this time, until further notice. Last month, the total meals served were as follows: 1,587 home delivered breakfast meals, 1,073 home delivered weekday lunches, 514 home delivered weekend lunches and for the individuals that normally come in to receive congregare meals, we have been delivering 3,596 frozen lunch meals.

**COST:** As per the attached correspondence from John Olmo, Vice-President (attachment #2), Greater Miami Caterers proposed pricing for congregare meals and home delivered meals are as follows:

- a unit cost of **\$3.80** per each Congregate Meals;
- a unit cost of **\$5.06** per each Home Delivered Weekday Meals;
- a unit cost of **\$4.62** per each Home Delivered Weekend Meals;
- a unit cost of **\$4.16** per each Home Delivered Breakfast Meals;
- a unit cost of **\$7.36** per each Home Delivered Emergency Shelf Stable Meals;
- a unit cost of **\$6.80** per each Congregate Delivered Emergency Shelf Stable Meals; and
- a unit cost of **\$5.03** per each C1 Covid-19 Related Frozen Congregate Meals.

Greater Miami Caterers, Inc. has provided these services to the City for the past (11) years. The City has been satisfied with Greater Miami Caterers, Inc.'s service and the residents who receive these services are also satisfied.

A Participant Satisfaction Survey is administered to the congregate meal recipients in November of every year. The percentage of 98 respondents who rated the meals to be either "excellent" or "good" was as follows: overall quality of food service: 40% of the respondents indicate "excellent", 50% indicate "good", 10% indicate "fair". Temperature of the food at serving time: 45% of the respondents indicate "excellent", 55% indicate "good". The overall taste of the food served: 33% of the respondents indicate "excellent", 52% indicate "good", 15% indicate "fair".

The City has reviewed comparable meals costs paid by other nutrition programs for the elderly throughout Miami-Dade County and finds that the price proposed by Greater Miami Caterers, Inc. is appropriate and in the City's best interest.

Staff recommends that Council select Greater Miami Caterers, Inc. pursuant to the RFP and authorize the City Manager to negotiate and execute a contract with Greater Miami Caterers, Inc. for a one year term beginning October 1, 2021 and ending September 30, 2022, with up to five additional one year option years through September 30, 2027, in an amount not to exceed \$236,920.20 annually.

It is mandatory that City be informed of the reason for substitution to keep on record. In the event that a substitution is made without prior approval, the City will not be responsible for payment for the unapproved menu item. Likewise, any menu item omitted will not be paid for by the City. The cost of said items shall be deducted from the bill at a rate to be determined at the time the contract is awarded. The Contractor shall provide immediate reimbursement for any out-of-pocket expenses incurred by the City when replacing part of or all of a meal that is not delivered or is not wholesome.
- 2.24.5** Contractor must provide a supply of substitution food items to be kept at the meal site in case a substitution is necessary.
- 2.25** SPECIAL MENU PROVISIONS:
- 2.25.1** The Contractor agrees to supply on a monthly basis, at no additional cost to the City, a 2½" square serving of birthday cake per person in place of the regular dessert item on an agreed date.

**2.25.2** The Contractor shall provide a traditional Thanksgiving, Christmas, and Easter meal, at no additional cost to the City, on a mutually agreed upon date. These meals will follow the holiday menus supplied by the Contractor and pre-approved by the City's Qualified Dietician and the Alliance for Aging, Inc.

**2.25.3** The Contractor agrees to furnish the aforementioned food for special occasions as scheduled by the City after a joint discussion of food service needs and with a seven (7) day advance notice.

**2.26** BOXED AND EMERGENCY LUNCHESES:

**2.26.1** As the City will be closed during certain holidays as stated in Section II Item B, the Contractor shall be prepared to supply boxed lunches at the same contracted meal unit cost to the City, if requested. The boxed lunch shall be delivered the day before the holiday for the same number of hot meals ordered that day. In addition, up to six (6) picnic meals may be requested by the City annually. These meals must be requested by the City at least one week prior to the serving date. Box lunches and picnic menu must also comply with all nutrition requirements and follow the menus initially provided by the Contractor and pre-approved by the City's Qualified Dietician.

**2.26.2** In any contract year, the City may request up to five menus for a take-home meal of non-perishable food for emergency use. The City shall request the non-perishable meals at least one week prior to the planned serving date.

**2.26.3** The Contractor agrees to have a contingency plan for supplying meals for at least 7 days in event of natural disasters, such as a hurricane, flood, fire, power failure, employee strikes, late supply shipments and similar circumstances which would prevent the Contractor from furnishing the meals in the usual fashion. Should the event or natural disaster be so severe that 7 days is not sufficient, the City may request additional meals.

**2.26.4** It is the responsibility of the City and the Contractor to provide each other with home telephone numbers and/or cell phone numbers for emergency use only.

**FOOD SANITATION AND SAFETY**

**2.27** FOOD PREPARATION AND SAFETY STANDARDS COMPLIANCE:

**2.27.1** It is mandated that the Contractor strictly adheres to food preparation and safety standards as stated in Attachment B (Pages 3-133 through 3-139).

**2.27.2** All applicable health and sanitation requirements shall be adhered to at the food preparation site/catering facility. Local, State, and Federal program authorities must have the right to inspect the premises and request formal inspection by health officials if deemed necessary.

**2.27.3** The food service vendor must not have had any temporary or permanent closures, Administrative Complaints regarding food safety, or 12 or more high priority/significant findings on sanitation inspections within the past 12 months, beginning July 1, 2018. Per Department of Business and Professional Regulation, "high priority violations could contribute directly to a foodborne illness or injury and could pose a direct or significant threat to public health, safety, or welfare." Per Department of Health, "an unsatisfactory inspection means that the violations were a significant threat to public health and sanitation and require correction before the next routine inspection."

**2.27.4** Meals may be prepared directly by provider (self-preparation kitchen) which serves one meal site or a central kitchen which serves many sites; or through a written contractual agreement with a vendor (school, restaurant, hospital); or a food service company and must comply with local, state (FAC 64E-11), and, if applicable, federal regulations.

**2.28 FOOD SAFETY MANAGEMENT:**

**2.28.1** The Contractor will provide documentation with its response to this Request for Proposal of their HACCP (Hazard Analysis Critical Control Point) food safety management program that addresses food safety issues such as: time/temperature, cross contamination, personal hygiene, proper storage procedures, holding and cooking of food items. This program must meet or exceed the minimum requirements of federal, state, municipal or other agencies authorized to inspect or accredit the food service operation. The Contractor must maintain this program in formal form at each central kitchen and this document is to be available for review upon request and at each annual inspection conducted by program staff or their representative.

**2.29 STATE INSPECTIONS:**

**2.29.1** The Contractor must provide documentation with this Request for Proposal of the food preparation inspections conducted by state regulatory authorities within the previous six months.

**2.29.2** The Contractor must provide documentation of the three most recent food preparation inspections conducted by the state regulatory authority.

**2.29.3** Following the award of contract, the City shall receive copies of inspection reports of the Contractor's facilities completed by health, sanitation, and safety officials within seventy-two (72) hours after receipt of the above by the contractor.

**2.29.4** The Contractor must provide a written plan of correction for any high priority or significant findings on sanitation inspections.

**2.29.5** The Contractor must notify the City immediately for any closures or Administrative Complaints regarding food safety; and notify the City within 24 hours of any sanitation inspections.

**2.30 DELIVERY STANDARDS:**

**2.30.1** The Contractor shall be responsible for the operation, insurance and maintenance of vehicles used in the delivery of food, supplies, etc. The Contractor will transport all food items in their own enclosed vehicles appropriate for delivery. All food transport equipment will be purchased, kept clean and be well-maintained by the Contractor. Food shall be packaged in equipment capable of maintaining hot food at 135° F or higher and cold food at 41° F or lower until the final site destination. The Contractor's personnel shall place cold food in the refrigeration units upon delivery to the City's meal site. All milk is to be iced down. The ice must be in a solid state at time of delivery. Temperatures of food at delivery will be confirmed with Contractor's personnel at arrival.

**2.30.2** In addition, the Contractor must deliver one home delivered test meal per month to the City's administrative office following the last delivery of the driver's route in order for the City to check temperature as part of quality compliance measure. If a problem with home delivered food temperatures is detected, more frequent monitoring will be conducted to ensure the problem is resolved. Documentation of the monitoring results will be maintained by the City.

**2.30.3** The contractor must provide a description of the vendor's delivery standards and sanitation that includes holding temperatures for transporting and serving food.

**2.31 OTHER INSPECTIONS:**

Re: Letter of Intent

Greetings from Greater Miami Caterers, Inc. (GMC) and its staff! As the uninterrupted and continuous caterer of the congregate and homebound meal program to the City of Miami Springs (CMS) since 1994, GMC may need little introduction to the CMS and its directors. Our partnership has stood the test of time and hopefully will continue for another six years at the conclusion of this bid process.

With the two principal oldest owners being previous graduates of Miami Springs Junior and Senior High, having lived on South Royal Poinciana Blvd. and Dove Ave. as we were growing up, to our mother who still lives on Dove Ave., our ties to the CMS are deeply rooted in the people we are today and to our commitment to the services we provide to the CMS. We continue to care deeply about the CMS as if we were still residents and have witnessed the tremendous progress the city has made over the years as we continue to serve the city, when attending to our mother's needs at her home or when visiting friends who live in "the Springs".

Our understanding of the work performed by GMC for the CMS is a very natural and organic process to our business operations. With over 28 years of experience performing the meal services, we have been subjected to every possible calamity from hurricanes, power interruptions at our kitchen or at the congregate facility, a fallen tree at the entrance of the congregate center, traffic diversions due to the regatta and water main breaks in the city and most recently the complete overhaul of all services to homebound frozen meals due to the pandemic, to mention a few. All operating decisions made on a daily basis use the CMS as the anchor of knowledge to our methodology of operations which allows us to be proactive rather than reactive to foreseen and unforeseen occurrences.

GMC continues to feel that we are positioned like no other to meet all aspects of the proposal and hope to earn that opportunity again for the next six years. Thank you for your consideration.

Sincerely,

John Olmo  
Vice-President

## IMMEDIATE CORRECTIVE ACTIONS and PLANS of ACTION to HEALTH DEPARTMENT INSPECTION of 4/15/21

**16-07-4 Observed:** Accumulation of debris in 3-compartment sink. Corrective Action – The 3-compartment sink was thoroughly cleaned inside and out to remove any residues. Plan of Action – This item will be added to the regular sanitation inspection program to prevent a repeat occurrence.

**16-23-4 Observed:** Accumulation of lime scale on the inside of the dish machine. Corrective Action – The dish machine was put through a descaling process by adding the descaling chemical and running it through multiple cycles to remove all scaling. Plan of Action – This item will be added to the regular sanitation inspection program to prevent a repeat occurrence.

**23-12-4 Observed:** Walk-in cooler and/or walk-in freezer shelves soiled with encrusted food debris. Corrective Action – The mesh shelving will be removed and replaced with standard wire shelving. Plan of Action – All storage facilities will be inspected for additional instances of mesh shelving with the intention of replacing those as well for standard wire shelving.

**23-24-4 Observed:** Buildup of food debris/soil residue on equipment door handles. Corrective Action – The oven door handle in question was cleaned thoroughly. Plan of Action – This item will be highlighted within the regular sanitation inspection program to prevent a repeat occurrence.

**31A-02-4 Observed:** Handwashing sink not accessible for employee use due to being blocked by storage rack. Corrective Action – As indicated in the inspection report, the rolling rack was moved to clear the path therefore this was immediately “Corrected On-Site”. Plan of Action – The new department manager was made aware of the need to keep the path to the hand washing sink clear for employee usage.

**31A-13-4 Observed:** Employee used handwashing sink as a dump sink. Corrective Action – The hand sink was thoroughly cleaned inside and out. Plan of Action – The new department manager was made aware of the need to monitor employee activities, particularly in terms of improper use of equipment by using the hand washing sink to rinse any food products.

**31B-02-4 Observed:** No paper towels or mechanical hand drying device provided at handwashing sink. Corrective Action – As indicated in the inspection report, the two empty paper towel dispensers were immediately refilled “Corrected On-Site”. Plan of Action – A review will be performed on the typical replacement schedule for empty dispensers so that they contain paper towels during peak employee usage times.

**33-14-4 Observed:** Dumpster overflowing garbage. Corrective Action – The garbage company performed their standard daily pick-up to clear the full dumpsters. Plan of Action – The dumping of the lightweight, but bulky Styrofoam boxes which filled up the dumpsters will be held just prior to the time that the garbage company performs their daily pick-up.

**36-22-4 Observed:** Floor area covered with standing water. Corrective Action – The area was mopped to remove the standing water. Plan of Action – We recently contracted our flooring repair man to resurface the area to remove these low-lying spots where water was accumulating, but the job was unsuccessful in eliminating all water retention. The mopping schedule in the area will be accelerated to keep up with future water retention.

**36-26-4 Observed:** Wall soiled with accumulated black debris in dishwashing area. Corrective Action – All walls within the dishwashing area were thoroughly cleaned. Plan of Action – This item will be added to the regular sanitation inspection program to prevent a repeat occurrence.

**36-41-4 Observed:** Fan cover in walk-in cooler has accumulation of dust or debris. Corrective Action – All fan covers within the walk-in cooler were thoroughly cleaned. Plan of Action – A review will be performed of the regular scheduling of fan cover cleaning throughout the facility and changes will be made accordingly to prevent a reoccurrence of this issue.

## BIOGRAPHY

Greater Miami Caterers, inc. (herein referred to as "GMC") was established in 1968 by Mr. David A. Butler. Over time, the company grew steadily year in and year out serving dignitaries to debutantes throughout Dade and Broward counties. This growth continued to the point where Mr. Butler was able to buy out his major retail competitor, Master Host Caterers in 1988. Unfortunately Mr. Butler passed away in early 1990 from kidney failure and was not able to participate in GMC's greatest successes in the 90's & 2000's. He was succeeded by his wife and brother-in-law who have both been active in the company for over Forty years. Our corporate structure is centralized and has only one location.

GMC's clientele base function in many different areas in need of catered food services. GMC originally served the "Master Host Dinner Service" to residences, meals to cafeterias and residential living centers, then transitioned into meals to adult and child schools and day care institutions, home-bound and congregate elderly meals-on-wheels. With the growth of elderly meals, child care & charter school meal programs, we found the need to consolidate our services and have eliminated all other product lines.

Through our financial success and viability, GMC has participated in numerous community events for the greater welfare of the public needs. GMC finds its goals to be similar to many other businesses that are family oriented, to produce a consistent product that maintains a high standard and reputation in the community at a reasonable price. We feel that our personal attention to every meal that leaves our kitchen separates us from our competitors and keeps our many longtime customers (some over twenty-five years) coming back for more.

GMC generates all sales in Dade and Broward counties. Our production processes, on a daily basis, produce an average of over twenty thousand meals. Meal types range from bulk child and elderly feeding sites to individualized meals to the elderly. The ability, production processes and expertise presently existing in GMC are positioned like no other competitor in our field.

GMC has only two corporate officers: 1) Jacqueline Butler, President, Secretary and Treasurer and 2) John Olmo, Vice-President. Mr. Olmo is the contacting liaison for most sales. His experience consists of a bachelors degree in business administration and over forty-two years of employment with GMC in all capacities. Namely driver, route supervisor, buyer, personnel director and finally general manager and part owner. Mrs. Butler has a bachelors degree in finance and as well has over forty years experience in the operations of GMC.

GMC has many references on which to draw upon to support all of its statements made here. All references can attest to our ability in the catering field.

GMC has on file an active affirmative action plan which can support GMC's efforts to

enhance minority participation in Dade County through its hiring and purchasing practices. In fact, GMC is recognized and qualifies as a minority vendor under the guidelines established by the U.S. Small Business administration as a female and Hispanic owned small business.

GMC transacts its business in a facility of 11,500 sq. Ft. plus one added warehouses/offices building of 6,000 sq. Ft. which includes offices (2,000 sq. Ft.), food preparation areas (8,000 sq. Ft.), refrigeration (1,900 sq. Ft.) and dry goods storage (4,000 sq. Ft.). Over the past twenty five years, we have invested over \$1,000,000.00 in the replacement and refurbishment of the equipment and facility. Production has been determined to be at 50% capacity of the facility.

GMC has a record of quality service going back to 1968. Through a dedication to quality service and competitive pricing, we have been growing daily since our doors opened. The majority of our client gains are strictly through word of mouth recommendations. We have relationships with clients that span over thirty years.

Staff shortage – GMC has not arrived to where it is today without having to respond to this problem nearly on a daily basis. All managers and assistant managers are capable of performing any and all line positions throughout our operation. If a driver calls in sick, the route is most often broken up into 2 or 3 parts so that it is accomplished within normal time standards. If any cook or food handler is out sick, staff redundancies with managerial supervision easily absorb the workload of their missing coworker. In addition, the major portion of our staff lives very near to our facility. Therefore during hurricane emergencies they are often called back in to meet the obligations GMC has to critical service providers that depend on our services to feed their work crews while they are restoring services to the residents of Miami-Dade County.

RE: Great Miami Caterers, Inc.

Little Havana Activities & Nutrition Centers of Dade County, Inc. ("LHANC") has had the pleasure of working with Great Miami Caterers, Inc. ("GMC") for many years. As our primary meals subcontractor, they have provided our company with an extensive array of meals for all of the services we provide. They serve our child day care, our home-based clients, and the bulk meals offered at the senior centers.

The services that they provide us are competitively bid. As a result of their professionalism, fair pricing, and understanding of the intricacies of the various lines of business that we have, GMC has won the bid process on several occasions. GMC is an integral part of our network and has been instrumental during the COVID-19 pandemic in ensuring that our seniors continued to receive much needed meals without fail.

LHANC is a non-profit organization serving thousands of children and the frail elderly of Miami-Dade County for almost 50 years. LHANC prides itself in providing quality services to its clients through its employees and network of providers.

GMC is an invaluable asset for our company, and I highly recommend that you continue to use them as your preferred meals caterer.

Sincerely,

## FINANCIAL CAPABILITES

With a track record of over 50 years of service to the South Florida community, Greater Miami Caterers, Inc. is one of the most well known institutional caterers in the market place. Along with those many years of experience, we have developed many long standing financial and vendor relationships which together have forged a successful partnership through good times and bad.

With these partnerships in hand, we have sustained multiple blows over the years that would have crippled most other businesses into bankruptcy, such as when JESCA closed its doors and left us with an unpaid \$160,000 balance. We have overcome all hurdles and competitive challenges in the marketplace and remain the “go to” company when others have failed to meet their service obligations. There is no better display of this than in our child care services division where severe price cutting by competition that is offering substandard service continues to pull market share. But as the sponsors see that the quality of services is not the same, they make every effort to terminate with their cut-rate provider so they can return to Greater Miami Caterers and the level of service they are accustomed to.

Another facet of our established place in the community is our ability to supply bid and performance bonding at any level needed to acquire contracts which demand the highest ability of responsiveness. We have been supplying contracts with bonds since 1984 when we were the winning bidder to the then “Community Action Agency Headstart Program” with a performance bond value of \$1,000,000.

After 38+ years of a banking relationship with Wells Fargo, we moved to Bank United about three years ago due to Wells’ decision to no longer fund our market segment. We established and secured our current line of credit of \$2,000,000 and continue to meet all underwriting guidelines. At present, we have zero funds outstanding on our line. Our last fiscal year of 2020 during covid was actually financially successful as we were able to increase our stockholder equity by 111% and end the year with a six-figure cash balance due to all the additional contracts we were able to serve in response to the pandemic.

From a food preparation standpoint, quality assurance is maintained through supervision, monitoring and documentation using various reports that are integral to the food preparation process. By following HACCP standards created for highly susceptible foods critical control points, we: 1) chart internal hot food temperatures for thorough cooking 2) chart internal food temperatures for proper cooling of hot foods within 4 hours, 3) receiving and storage check points, 4) maintain electronic cooler temperature logger for proper temperature maintenance, 5) charting of reheating temps to 165°F, 6) labeling of packaged foods including allergens and finally the 7) checkpoint at point of service when the delivery is made and the center staff review, temp and verify quality upon receipt. Any corrective action needed after that has been previously addressed.

To further support quality assurance in our services to you, in-service training to our staff has regularly been conducted and all training materials and logs of attendance have been regularly provided upon request to respond to monitoring request by your lead agency.

## FOOD TRANSPORTATION SYSTEMS MEAL SERVICE & DELIVERY DESCRIPTION

Your homebound meals are regularly delivered within our morning to midday routing structure. The driver which performs these deliveries has a long standing record of many years of service for G.M.C.. We are sure that no other caterer in town can say that they have had the same drivers performing routes of this size for periods extending over twenty years.

His conscientious approach has been a tremendous asset to the execution of your delivered meals program because of the rigorous demands expected by C.M.S. of the driver. There have been instances in the past where the driver has saved lives because he has found the client unconscious or incapacitated on the floor and has notified the authorities. Clients could literally go unnoticed and unattended for days before help arrived if it weren't for our driver's regular contact. We have great pride in the job that our driver has done and due to the good salary and benefits provided him, he is happy to provide the excellent service expected of him by C.M.S..

The little details that we attend to on a daily basis assists us in providing a high standard of service. Individual meals are packaged in cambro transportation boxes that hold a maximum of fifty-five meals each and are rated to have only a 10 degree F temperature loss over 4 hours. Bulk-congregate meals also utilize the state of the art cambro food shipping containers.

All cold foods requiring a delivery temperature of 41 degrees or below are packaged on ice or dry ice in igloo, gott, rubbermaid or styro coolers. Room temperature foods are normally boxed. All foods are individually sealed to prevent any form of contamination during transit.

Congregate and homebound meals are given to the drivers at a temperature of 160 to 180 degrees Fahrenheit. The congregate meal driver leaves at 10:10 a.m. to arrive at the site at 10:30 a.m. Homebound meals depart at 11:10 a.m. and begin to arrive at their first stop at 11:30 am. The routes are executed in a cargo van and performed in a prudent and efficient manner and completed before the 1:30 pm requirement.

Frozen meal boxes to homes are delivered by placing 10 meal boxes per Super insulated storage boxes along with 8 lbs. dry ice to maintain frozen condition during shipping. These super boxes are loaded on cargo trucks that will perform all scheduled deliveries for that day.

There are innumerable staff and vehicles available to assist in problem solving. None of the ten individuals available to respond to problems have responsibilities directly related to the preparation or delivery of C.M.S. meals. The primary candidates for driver assistance are Jorge Gutierrez and Abraham Ramos with their combined twenty years of experience. Both have been called upon often in the past to help C.M.S. drivers and therefore would continue to do so through their excellent working knowledge of the food service industry and all its nuances.

## **FOOD MANAGEMENT STAFF:**

G.M.C. will interact at all levels of the company from president to cooks, on a daily basis with C.M.S..

The primary contact Program Manager on a full-time basis is John Olmo. His summary of experience is included in the G.M.C. biography. He is responsible for all aspects of service from the preparation and packaging through the delivery and billing process.

These activities are accomplished with daily interaction by: 1) Stephanie Visi, Coordinator for Homebound Elderly Services, who accepts and processes the daily changes; on the 31st of the month, they reconcile the bill for the month end for homebound services, 2) John R. Butler, kitchen manager, who monitors food packaging and preparation through his purchasing of raw materials, 3) Abraham Ramos, shipping supervisor, who on a daily basis, sees that both the drivers depart with all food products designated for that day and that all foods are at their proper temperatures (ex. Ice on cold foods), 4) John Olmo, Vice-President, who inspects daily the packaging and heating of meals for proper temperature and menu conformity, 5) Jose Lopez, executive chef, monitors menu conformity, packaging and temperature control and 6) Kenneth St. Louis, head chef, performs the major portion of the preparation of C.M.S. meals with the help of five assistants.

## **REFERENCES:**

G.M.C. has an excellent reputation in South Florida for providing good quality, timely service, at reasonable prices. Our clientele span over many market segments which have varying needs of service. We invariably prepare multiple menu plans on a routine basis. We serve breakfast, am snacks, lunch, pm snacks and dinner. A list of references are attached.

## COMPREHENSIVE EMERGENCY MANAGEMENT AND CONTINGENCY PLANS FOR CITY OF MIAMI SPRINGS

Disabled vehicles – GMC has up to four trucks idle at all times which can rescue disabled vehicles in the rare event that multiple vehicles breakdown at the same time. In addition, we possess three large SUV's with large cargo areas which supplement back-up vehicle inventory. In summary, these redundancies in vehicles provide us with quick response fixes to vehicle breakdowns.

There is innumerable staff available to assist in problem solving. None of the ten individuals available to respond to problems have responsibilities directly related to the preparation or delivery of meals. The primary candidates for driver assistance are Abraham Ramos and Jorge Gutierrez with their combined twenty years of experience. All have been called upon often in the past to help the C.M.S. driver and therefore would continue to do so through their excellent working knowledge of the food service industry and all its nuances.

Staff shortage – GMC has not arrived to where it is today without having to respond to this problem nearly on a daily basis. All managers and assistant managers are capable of performing any and all line positions throughout our operation. If a driver calls in sick, the route is most often broken up into 2 or 3 parts so that it is accomplished within normal time standards. If any cook or food handler is out sick, staff redundancies with managerial supervision easily absorb the workload of their missing coworker. In addition, the major portion of our staff lives very near to our facility. Therefore during hurricane emergencies they are often called back in to meet the obligations GMC has to critical service providers that depend on our services to feed their work crews while they are restoring services to the residents of Miami-Dade County.

Malfunctions of kitchen equipment - in consideration of our constant refurbishment, replacement, updating, upgrading, regular maintenance and capacity expansion of all kitchen equipment and facility, our ability to respond to inevitable breakdowns is well beyond average. Operating at about 50% of capacity, our equipment does not get overworked or abused. Every major piece of equipment has, in most cases, four to six sister modules which can absorb the reduction of capacity until that failed component is brought back into service. In addition to this, GMC has a self-contained power generator which can power the entire facility in the event of a power interruption from FPL.

Non-compliance of supplier – GMC presently utilizes approximately 55 suppliers of which 25 are used on a weekly basis. We at present utilize the proverbial philosophy “don't put all your eggs in one basket”. We may from week to week or other alternating period purchase the same supplies from different suppliers. We are beholden to none and our suppliers know that they must work very hard to get and keep our business and that they must continually deliver top quality product to maintain the relationship. In summary, the only way in which GMC could be prevented from meeting menu specifications is to be exposed to a nationwide or regional shortage of a menu component which is now occurring during post-covid times.

## QUALITY ASSURANCE MEASURES

Simply stated, our ability to cook, package and deliver a top program of your needs and magnitude has fortunately for Greater Miami Caterers (herein referred to as "G.M.C."), been displayed by us through our 50+ years of existence.

We have taken the experiences and the lessons learned in performing similar contracts, going back to our corporate infancy of the late 70's and early 80's, and have applied these high standards of service to all of our present services. These include catered meals to the City of Miami Springs, City of West Miami, South West Social Services, Hialeah Housing Authority, North Miami Foundation and to Miami-Dade County Elderly Meals Program.

Our kitchen is located at 4001 N.W. 31 Avenue, Miami, Florida 33142. Our sole office is located right next door at 3055 N.W 40 Street, Miami, Florida 33142. With a mature stature as a leader in the food service industry, we are providing an average of 20,000 meals per day to adult day care centers, meals-on-wheels to the elderly, congregate meals to the elderly, meals to charter schools and child day care with meal types comprising of hot and cold breakfast, hot lunches & dinner, cold lunches & dinner, boxed lunches & dinner, morning and afternoon snacks, shelf stable meals, frozen meals, special diet meals and a full compliment of grocery supply items for other special dietary needs including baby and toddler foods.

Our facility is one of the largest institutional kitchens operating in South Florida possessing ten (10) refrigeration units, vast production and dry goods storage areas, large vertical rotary (7) & fixed shelf (4) natural gas ovens, boiler & steam generation, 9 full jacket steam kettles ranging in size from 40 to 120 gal, candy stove and 2 double sized fryers, shipping dock overhang and an integrated operations system that is fully computerized for every facet of the business. We function on no less than twenty-five (25) different menu cycles at any one time serving an endless variety of ethnic groups.

We employ roughly 90 to 100 full-time personnel throughout the year with multiple staff with tenure in excess of ten and twenty years of employment. As well, Greater Miami Caterers is positioned for operation during a natural disaster with its own electric generator and three day replenish able fuel supply. Underground natural gas lines provide a constant supply for all ovens to continue uninterrupted service.

The capacity for G.M.C. to meet or exceed any need expressed by the C.M.S. has been displayed throughout our business existence such as full service operation unlike many of our competitors on all holidays except Christmas and New Year's days. All support systems are in place to actualize all service demands.

From a facility that is operating at 50% of its capacity with personnel that are long term and service oriented, to the financial stability that fifty+ years of business success breeds with excellent banking relationships and open lines of credit, G.M.C. is the caterer which can best continue to fill the needs of the C.M.S..

## Disaster Food Service Preparedness for City of Miami Springs (C.M.S.)

G.M.C. is positioned to respond to emergency food service requests by C.M.S. before, during and after the period of a natural disaster. We closely monitor weather conditions and reports by NOAA, NHC and other government agencies prior to, during and after tropical storms and hurricanes. We stay in constant communication with customers so that we can create pro-active plans based on alternative circumstances of the information available up-to-the-minute. We set up responses to situations by saying "if" this were to happen, "then" our reaction would be to do the following. We do this in case communications are disrupted so we will already know how to proceed without further communication. For example, "if" we say that if the Dade County public board issues a closure of schools, "then" your congregate meal sites will not receive meal service.

Our ability to respond to your needs will be predicated on the accessibility of your clients. As long as conditions are safe enough that a prudent person could gain access to their location, we will be happy to service all your needs. Specifically to congregate meal sites, if you have chosen to open, this choice has been made through an evaluation that certainly includes the safety of your participants. Once the decision has been made to open, we will be available to serve your centers within a 24 hour notification. These decisions though must include the consideration of accessibility to the opened location with a cargo van that can travel safely to and into the location. In regards to homebound clients, the same principles apply in terms of planning, notification, accessibility and execution of services. Particularly since you find that many homebound clients stay with other relatives during storms, the consideration of when to resume services is difficult to determine. Once resumed, we will report all clients who are not home so you can stop their services until they return home.

Prior to storm arrival, considerations to request last minute extra meals or shelf stable meals are frequently discussed. We can normally respond to boxed meals requests within 24 hours, but shelf stable meals are a request that must be considered with a minimum of 2 weeks notice prior to anticipated date of delivery. We stock limited supplies of shelf stable items, but may have enough on hand for a limited response if called upon for a last minute order.

G.M.C.'s facility has generator capacity for electrical back-up & operates on underground natural gas pipelines. Unless gas lines are cut off, we will be able to serve hot food on an ongoing basis. To date, our gas supply has never been interrupted. We believe that this supply is much more reliable than LP gas due to service interruptions caused by road conditions and the overwhelming delivery demands made on an LP gas company's after an emergency.

G.M.C. as well, has access to mobile generator electrical capacity through our electrical contractor vendor. If we were to have a disruption to our built in generator, we would have a back-up to our back-up. All of our kitchen equipment will function as normal while we are operating under generated power means. In addition, our truck fleet will continue to operate through our own tank storage and dispensing of gasoline and diesel fuels on premise. We can typically operate our entire fleet for one week under full service demand before receiving our next fuel delivery.

94

**Disaster Food Service Preparedness  
for City of Miami Springs (C.M.S.)  
Continued.....**

Our ability to staff before and after a storm has always been a great asset to our company. The majority of our employees lives within 3 to 5 miles of our facility and therefore are placed on call notice of when to return to work as soon as the decision has been made. Since many other parts of our regular business do not resume immediately after a storm, there is normally an excess capacity of staff available to fill post storm needs.

We will operate on a full service basis to the capacity at which our suppliers are able to respond to our orders for raw materials for production. We expect to be able to serve most typical food items that you would find when serving breakfast, hot lunch, box lunch, dinner and snacks. In this regard, some menu substitution may take place due to unavailability of specific foods, but these substitutions will be made with like foods that meet reimbursable standards. We regularly purchase on occasion from as many as 85 different food suppliers of which at least 30 are used on a weekly basis. Through all of these alternative sources, we will purchase all of the products needed to match your menus exactly or as close as possible.

RE: Great Miami Caterers, Inc.

Little Havana Activities & Nutrition Centers of Dade County, Inc. ("LHANC") has had the pleasure of working with Great Miami Caterers, Inc. ("GMC") for many years. As our primary meals subcontractor, they have provided our company with an extensive array of meals for all of the services we provide. They serve our child day care, our home-based clients, and the bulk meals offered at the senior centers.

The services that they provide us are competitively bid. As a result of their professionalism, fair pricing, and understanding of the intricacies of the various lines of business that we have, GMC has won the bid process on several occasions. GMC is an integral part of our network and has been instrumental during the COVID-19 pandemic in ensuring that our seniors continued to receive much needed meals without fail.

LHANC is a non-profit organization serving thousands of children and the frail elderly of Miami-Dade County for almost 50 years. LHANC prides itself in providing quality services to its clients through its employees and network of providers.

GMC is an invaluable asset for our company, and I highly recommend that you continue to use them as your preferred meals caterer.

Sincerely,

**Public Entity Crimes Affidavit**

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt,

**CITY OF MIAMI SPRINGS  
REQUEST FOR PROPOSALS NO. 01-20/21**

in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

**(INDICATE WHICH STATEMENT APPLIES.)**

Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted Contractor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the

REQUEST FOR PROPOSALS NO. 01-20/21**

calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

### Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. ### General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/FormW9](http://www.irs.gov/FormW9).

### Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-DIV (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
  - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
  - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
  - Form 1099-S (proceeds from real estate transactions)
  - Form 1099-K (merchant card and third party network transactions)
  - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
  - Form 1099-C (canceled debt)
  - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.
- If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.*

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

**Note:** If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

**Foreign person.** If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*).

**Nonresident alien who becomes a resident alien.** Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

**Example.** Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

## Backup Withholding

**What is backup withholding?** Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

**Payments you receive will be subject to backup withholding if:**

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the instructions for Part II for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships*, earlier.

## What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

## Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

## Penalties

**Failure to furnish TIN.** If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

**Civil penalty for false information with respect to withholding.** If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

183

**Criminal penalty for falsifying information.** Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

**Misuse of TINs.** If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

## Specific Instructions

### Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

**Note: ITIN applicant:** Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C corporation, or S corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

### Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

### Line 3

Check the appropriate box on line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3.

### Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

### Line 6

Enter your city, state, and ZIP code.

## Part I. Taxpayer Identification Number (TIN)

**Enter your TIN in the appropriate box.** If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

**Note:** See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

**How to get a TIN.** If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at [www.SSA.gov](http://www.SSA.gov). You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at [www.irs.gov/Businesses](http://www.irs.gov/Businesses) and clicking on Employer Identification Number (EIN) under Starting a Business. Go to [www.irs.gov/Forms](http://www.irs.gov/Forms) to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to [www.irs.gov/OrderForms](http://www.irs.gov/OrderForms) to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

**Note:** Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

**Caution:** A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

## Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

**Signature requirements.** Complete the certification as indicated in items 1 through 5 below.

185

**1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983.** You must give your correct TIN, but you do not have to sign the certification.

**2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983.** You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

**3. Real estate transactions.** You must sign the certification. You may cross out item 2 of the certification.

**4. Other payments.** You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

**5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions.** You must give your correct TIN, but you do not have to sign the certification.

**Secure Your Tax Records From Identity Theft**

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

186

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

#### **MENU REVIEW AND APPROVAL:**

- A. Menu Planning:** The menus shall be planned and provided to the qualified dietitian for review no less than **six calendar weeks** in advance of implementation.
- B. Menu Approval:** All menus must be approved at least **four calendar weeks** prior to implementation. All menus must be approved in writing by a qualified dietitian. The approving qualified dietitian's signature and date must be documented on each page of the approved and posted menu. The approving signature verifies that all menus comply with DOEA menu standards and applicable supporting nutrient analysis documentation is maintained. The AAA qualified dietitian or the nutrition program Qualified Dietitian may approve the menus. A qualified dietitian employed by the food vendor may not approve the menus, because this is a conflict of interest.
- C. Menu Cycle:** Nutrition Programs may choose to offer two types of menu cycles:
- 1. Preselect Menu:** daily menu offers only one entrée; or
  - 2. Selective Daily Menu:** offers two to three entrée choices.

The preselect menu cycle shall be no less than 4 weeks in rotation of different food combinations to assure variety of colors, flavors, and textures. Preselect cycle menus shall run for a maximum of six months before changing, and food items should not be repeated on consecutive days or consecutive days of the week.

Meal sites offering a selective menu (i.e., buffet style meal service or kiosk) may decrease the menu rotation and the same menu item may be repeated on consecutive days or consecutive days of the week. However, the program must monitor acceptance and ensure menu fatigue is avoided. Selective menus shall run for a maximum of six months before changing.

- D. Menu Revisions:** The AAA or nutrition program qualified dietitian may require menu revisions based upon a review or the results of client satisfaction surveys. Requested menu revisions will be given to the service provider at least two weeks prior to scheduled menu implementation.
- E. Menu Corrections:** Copies of corrected menus must be resubmitted to the AAA or nutrition program qualified dietitian within one week of receipt of comments or as otherwise directed.

- F. Menu Posting:** Approved preselect menus shall be dated and posted in a conspicuous location at each congregate nutrition site in a font size large enough for easy review by the participants. Nutrition programs that prepare their meals must also post a copy of their menus in the food preparation area.

Select Menu (i.e., buffet style or kiosk) approved menu shall be dated and posted on/near the buffet style serving line and should be printed in font size large enough for easy review.

- G. Menu Retention:** Dated and approved menu with supporting menu related documents must be kept on file, as served for a period of two years for audit purposes.
- H. Menu Adherence:** Approved menus shall be followed as written.
- I. Menu Substitutions:** A comprehensive menu substitution policy and procedure must be developed and approved by the nutrition program's qualified dietitian. The menu substitution policy must be available for the site manager's use. Each meal site shall maintain an on-site record of all substitutions that occur during the calendar year. Menu substitutions shall be minimal, but are allowed under the following conditions:
1. Menu substitutions must be from the same food group and provide equivalent nutritional value. For example, a fruit high in Vitamin C must be substituted with another fruit high in Vitamin C.
  2. Prior to use the nutrition program's qualified dietitian must approve the menu substitution policy and procedures and the menu substitution list. It is encouraged that the menu substitution list be inclusive and thorough.
  3. Documentation of all menu substitutions must be kept on file for at least two years for monitoring purposes. The documentation must include the date of substitution, the original menu item, the substitution made, the reason for the substitution and the signature of the employee authorizing the substitution. Finally, the volume and frequency of substitutions must be justified by the reasons provided. For example, a seasonal fruit may be substituted for a canned fruit.

3. **Nutrient Requirements:** All meals, regardless of development method, will provide each participating older individual with a minimum of 33 1/3 percent of the current Dietary Reference Intake (<http://fnic.nal.usda.gov/dietary-guidance/dietary-reference-intakes>) and comply with the current Dietary Guidelines for Americans. The values required meet the nutritional needs of a moderately active 70+ female, reflecting the predominant state wide demographic. The AAA may authorize a Nutrition Program to alter the nutrient requirements of their menus if most the senior population served by the Nutrition Program differs from the statewide demographic. DOEA must be provided advance notification, in writing of the demographic differences of the site(s) and the exact menu changes.
  
4. **Computer Assisted Nutrient Analysis Menu Development:** This method of menu development must comply with the following:
  - a. DOEA menu development standards ensuring compliance with the most recent edition of the Dietary Guidelines for Americans, published by the Secretary of Health and Human Services and the Secretary of Agriculture (<http://www.health.gov/dietaryguidelines/>);
  - b. Providing a minimum of 33 1/3 percent of the Dietary Reference Intake/Adequate Intake (DRI/AI) for moderately active 70+ females as established by the Food and Nutrition Board of the Institute of Medicine of the National Academy of Sciences, if one meal is provided per day;
  - c. Providing a minimum of 66 2/3 percent of the DRI/AI, for a moderately active 70+ female, if two meals are provided per day;
  - d. Providing 100 percent of the DRI/AI, for a moderately active 70+ female, if three meals are provided per day;
  - e. Any special dietary needs of program clients to the maximum extent practicable; and
  - f. Applicable provisions of state or local laws regarding the safe and sanitary handling of food, equipment, and supplies used in the storage, preparation, service, and delivery of meals to an older individual. Ref. Chapter 64-E-11-Food Hygiene, F.A.C. (<http://fac.dos.state.fl.us>).

#### **Computer-Assisted Menu Development Requirements:**

**Targeted Nutrients:** Table One represents the most current Dietary Reference Intakes and daily compliance range for target nutrients. The following nutrients are required to be analyzed for each component of each menu item: calories, protein, fat, fiber, calcium, zinc, sodium, potassium, vitamin B6, vitamin B12, vitamin C, and vitamin A (vegetable-derived/carotenoid sources). Calories, protein, fat, fiber, calcium, vitamin B6, and vitamin C must be provided in adequate amounts daily. Vitamin A, vitamin B12, zinc, magnesium, sodium, and potassium may be averaged over one week. Sodium may be averaged over one week; however, no one-meal amount may exceed 1000 milligrams. It is recommended that fortified foods should be used to meet vitamin B12 needs. Holidays and birthday celebration meals (two or fewer meal types per calendar month) may be excluded from the nutrient analysis.

- C. Provide a minimum of two times the minimum meal servings of the 1800-calorie component meal pattern, if two meals are provided per day;
- D. Provide a minimum of three times the minimum meal servings of the 1800-calorie component meal pattern, if three meals are provided per day;
- E. Any special dietary needs of program clients to the maximum extent practicable; and
- F. Applicable provisions of state or local laws regarding the safe and sanitary handling of food, equipment and supplies used in the storage, preparation, service, and delivery of meals to an older individual. Ref. Chapter 64-E-11- Food Hygiene, F.A.C. (<http://fac.dos.state.fl.us>).

The 1800-calorie component meal pattern has been developed to reflect the current Dietary Guidelines for Americans and USDA Food Intake Pattern calorie levels for a moderately active 70+-year-old female (requirements for those programs that are not using computerized nutrient analysis). Holidays and birthday celebration meals (two or fewer meal types per calendar month) may be excluded from the component meal pattern requirement. The component meal pattern may be deficient in vitamin E, vitamin B12, and Zinc, therefore additional nutrition education for participants on the selection of foods that are good sources of these nutrients shall be provided.

Section III: Service Requirements

Nutrition Program Policies

1. Frozen or canned fruit must be packed in juice or water.
2. Title III funds may only pay for full strength fruit juices. The only exception to this requirement is cranberry juice.

D. Dairy:

1. One cup low-fat, fat-free, buttermilk, low-fat chocolate milk, soy milk, or lactose-free milk fortified with Vitamins A and D should be used. Milk should be served from its original container, usually 8 ounces in size. Any deviations from this policy should be submitted in writing to the AAA's qualified dietitian for approval.
2. Low-fat or fat-free milk is recommended for the general population.
3. Powdered dry milk or evaporated milk may be served at congregate meal sites, but not for the main meal except for cultural or religious reasons. Each powdered milk or evaporated milk serving size must be equivalent to one cup of milk. Powdered milk may be used with frozen home-delivered meals and emergency meals.
4. Dairy alternates, listed in the chart below, may be provided in place of milk (for the equivalent of one cup of milk).
5. All milk containers must have a clearly labeled expiration date.
6. Policies and procedures shall be developed, and implemented, to address instances when milk is received, e.g., without an expiration date, past the expiration date, past the sell-by date, past the best-by date, or past the use by date.

Dairy Alternates
1 cup yogurt
1 ½ ounce hard cheese (Cheddar, Monterey, Provolone, Colby, American Mozzarella, Swiss, Parmesan) or 2 ounces processed cheese (American)
8 ounces tofu (processed with calcium salt)
1 ½ cup ice milk/ice-cream
1 ½ cup cottage cheese 1% fat
1 ½ cup custard

**E. Protein Foods:** Two to three ounces edible portion of meat, poultry, fish, or meat alternate (or a combination of) should be provided for the lunch or supper meal. Meat serving weight is the edible portion, not including skin, bone, or coating. A one-ounce equivalent of a meat alternate includes:

	Amount that counts as 1 ounce equivalent in the Protein Foods Group	Common portions and ounce equivalents
Meats	1 ounce cooked lean beef 1 ounce cooked lean pork or ham	1 small steak (eye, round, or filet) = 3 ½ to 4-ounce equivalents 1 small lean hamburger = 2 to 3-ounce equivalents
Poultry	1-ounce cooked chicken or turkey, without skin 1 sandwich slice of turkey (4 ½" x 2 ½ x" 1/8")	1 small chicken breast half = 3-ounce equivalents ½ cornish game hen = 4-ounce equivalents
Seafood	1-ounce cooked fish or shell fish	1 can tuna, drained = 3 to 4-ounce equivalents 1 salmon steak = 4 to 6-ounce equivalents
Eggs	1 egg	3 egg whites = 2-ounce equivalents 3 egg yolks = 1-ounce equivalents
Nuts and seeds	½ ounce of nuts (12 almonds, 24 pistachios, 7 walnut halves) ½ ounce of seeds (pumpkin, sunflower, or squash seeds, hulled, roasted) 1 Tablespoon of peanut butter or almond butter	1 ounce of nuts or seeds = 2-ounce equivalents
Beans and peas	¼ cup of cooked beans (black, kidney, pinto, or white beans) ¼ cup of cooked peas (chickpeas, cowpeas, lentils, or split peas) ¼ cup of baked beans, refried beans ¼ cup (about 2 ounces) of tofu 1 oz. tempeh, cooked ¼ cup roasted soybeans 2 Tablespoons of hummus	1 cup split pea soup = 2-ounce equivalents 1 cup lentil soup = 2-ounce equivalents 1 cup bean soup = 2-ounce equivalents 1 soy or bean burger patty = 2 ounce equivalents

1. A one ounce serving or equivalent portion of meat, poultry, or fish may be served in combination with other high protein foods.
2. Except to meet cultural and religious preferences and for emergency meals, avoid serving dried beans, peas or lentils, peanut butter or peanuts, and tofu for consecutive meals or on consecutive days.
3. Cooked dried beans, peas, or legumes intended as the meat alternative for any meal may not also count toward the fruit/vegetable requirement for the same meal.
4. Nuts and seeds may be used to meet no more than one-half of the meat alternative meal requirements, and must be appropriately combined with other meats/meat alternates to fulfill the requirement.
5. Cured meat products, such as ham, smoked or polish sausage, corned beef, dried beef, luncheon meats, and hot dogs are very high in sodium and the use of these type products must be limited to no more than once a week. Bacon is not considered a meat alternate, since it provides primarily fat, sodium, and few other nutrients.
6. Vegetable protein products or textured vegetable protein (VPP or TVP) are low cost alternatives and are effective in increasing the protein intake of program clients. The recommended ratio of protein product to meat is 20:80.
7. Imitation cheese (which the Food and Drug Administration defines as one not meeting nutritional equivalency requirements for the natural, non- imitation product) cannot be served as meat alternates.

F. Prepared Fish Products:

Fish Product	Serving or Portion Size
Fish sticks, Frozen Fried Breaded, 60 percent fish	Six 1-ounce sticks = 3 ounces cooked fish
Fish sticks, Frozen Raw Breaded, 72 percent fish	Six 1-ounce sticks = 3 ounces cooked fish
Fish portions, Frozen, Fried Battered. There is no standard portion for this product. Specify 45 percent fish and require a certificate of inspection	9-ounce portion = 3 ounces cooked fish
Fish portions, Frozen, Fried Breaded	6-ounce portion = 3 ounces cooked fish
Fish portions, Frozen, Raw Breaded 75 percent fish	6-ounce portion = 3 ounces cooked fish
Fish portions, Frozen, Unbreaded	4-ounce portion = 3 ounces cooked fish

G. Additional Menu Development Considerations:

1. **Canned Soups:** Most canned soups do not contain enough meat to make a substantial contribution to the meat requirement. For example: Bean soup or Pea Soup: A 1-cup serving of soup contains ½ cup beans or peas. This is equivalent to one ounce of Meat/Meat Alternative. It would take 3 cups to provide the required 3 ounces of Meat/Meat Alternative.
2. **Hot Dogs/Frankfurters:** Red meat (beef, pork, etc.) and poultry (turkey, chicken) hot dogs that do not contain meat by products, cereals, binders, or extenders:
  - a. 1 ounce of product provides 1 ounce of cooked lean meat. Look for products labeled "All Meat", "All Beef", "All Pork", etc. If a single hotdog equals 2 ounces, it will take one and a half hot dogs to equal a 3-ounce portion.
  - b. Hot dogs containing meat by-products, cereals, binders, or extenders are not acceptable on an ounce-for-ounce basis. Product labeling will indicate the presence of any such ingredients.

### Section III: Service Requirements

- c. If using hotdogs containing extenders or binders, only the cooked or lean meat portion of the product can be used toward the Meat/Meat Alternatives requirement. Obtain product information from the manufacturer if necessary.

#### H. Accompaniments, Condiments, and Product Substitutes:

1. Include traditional meal accompaniments as appropriate, e.g., condiments, spreads, and garnishes. Examples include: mustard and/or mayonnaise with a meat sandwich, tartar sauce with fish, salad dressing with tossed salad, and margarine with bread or rolls. Whenever feasible, provide reduced fat alternatives.
2. Salt substitutes shall not be provided. Sugar substitutes, pepper, herbal seasonings, lemon, vinegar, non-dairy coffee creamer, salt, and sugar may be provided, but shall not be counted as fulfilling any part of the nutritive requirements.
3. Sugar, condiments, seasonings or dressings intended for self-service use shall be provided only in individual packages or from dispensers that protect their contents.

#### I. Fat:

1. Minimize use of saturated fat in food preparation. Fats should be primarily monounsaturated and polyunsaturated vegetable oils, such as olive, peanut, corn, safflower, canola, cottonseed, and soybean oils.
2. The use of butter or fortified margarine as a spread for the bread is optional because of the emphasis on reducing fat content of the meals.

#### J. Desserts:

1. Dessert may be provided as an option to satisfy the caloric requirements or for additional nutrients. However, effort must be made to limit the amount of added sugar in the food preparation.
2. Preferred desserts include fresh, frozen, or canned fruit packed in their own juice, and low-fat products made with whole grains and/or low-fat milk.

### Section III: Service Requirements

### Nutrition Program Policies

---

3. Pudding made with low-fat milk, low-fat ice cream, ice milk, or frozen yogurt may be served where feasible due to the increased calcium needed by the elderly.
  4. High-fat baked goods such as brownies, cakes, cobblers, cookies, and pies should be limited to once a week.
- K. Beverages:** In addition to beverages listed on the posted menu, drinking water should be available at all times. .
- L. Functional Foods:** Functional foods are foods in which the concentrations of one or more ingredients have been manipulated or modified to enhance their contribution to a healthy diet. Examples include everything from fruits, vegetables, grains and legumes, to fortified or enhanced foods. Nutrition programs are encouraged to use functional foods in menus whenever possible. Additional information regarding functional foods can be found at <http://www.eatright.org>.
- M. Dietary Supplements:** Dietary supplements encompass a wide range of products, including but not limited to vitamins, minerals, amino acids, and herbs. Although some older adults may need dietary supplements for health enhancement and/or to assist in meeting daily nutrient needs, they cannot be included in nutrition program meals.
- N. Modified Diets:** Modified or therapeutic medical diets may be provided as required by the client's special needs and medical condition.
1. **Documentation:** A written or documented verbal order must be on file for everyone receiving a modified diet, and the order should be reviewed annually with the client's healthcare provider.

# DEPARTMENT OF ELDER AFFAIRS PROGRAMS AND SERVICES HANDBOOK

## Chapter 3: Older Americans Act (OAA)

### Section III: Service Requirements

### Nutrition Program Policies

2. **Therapeutic Diet:** A therapeutic diet is an individualized diet prescription written by a medical professional that defines the client's daily intake for specific nutrients, i.e., an insulin-controlled diabetic diet would specify grams of carbohydrates, protein, fat and calories. For each client requiring a therapeutic diet, it is the responsibility of the qualified dietitian to develop an individual diet plan that provides the exact prescription of the prescribing medical professional and is adapted to the individual's food preferences as much as possible. Therapeutic diets require in-depth planning, counseling, and on-going supervision by a qualified dietitian.
3. **Modified/Therapeutic Menu:** Modified or therapeutic menus must be planned and prepared under the supervision of a Qualified Dietitian.
4. **Malpractice Insurance:** It is recommended that any dietitian providing therapeutic diet instruction be covered by malpractice insurance.
5. **Manual of Medical Nutritional Therapy:** A current Florida Manual of Medical Nutritional Therapy must be used as the basis for therapeutic or modified menu planning.
6. **Feasibility/Appropriateness of Modified/Therapeutic Diet:** In determining feasibility and appropriateness, the provider must determine whether:
  - a. There are sufficient numbers of persons needing special menus to make their provision practical.
  - b. The food and skills necessary to prepare the special menus are available in the AAA.
7. **Texture Modified Meals:** Modifying food texture and consistency may help older adults with chewing and swallowing problems. Chopping, grinding, pureeing, or blending foods are common ways to modify food textures. Texture modified food has the same nutritive value of solid foods and can be just as tasty and appealing. Serving sizes should account for any dilution to the food item during the preparation process. Thickened liquids are often required for individuals with dysphagia. The provision of such foods should be planned and prepared under the advice of a qualified dietitian.
8. **Adaptive Equipment:** When feasible and appropriate, reasonable attempts will be made to provide appropriate food containers and utensils for clients with disabilities.

- O. Emergency Meals:** Nutrition programs are required to develop and have available written plans for continuing services for congregate and home delivered meals during weather-related or other emergencies including food procurement. Programs may offer shelf- stable meals to clients for later use. In accordance with NOI 020520-1-I-SWCBS, Emergency Home Delivered Meals (EHDM) must be reported in CIRTS with the aggregate number of meals received by the Nutrition Provider (after receipt).

Client specific information shall be maintained by the Nutrition Provider for audit purposes. This information must include the following:

- Client Name
- Client Signature
- Client ID Number
- Date of meal received by client

In the event there are no emergencies requiring the distribution of EHDM, Nutrition Providers are responsible for having a distribution plan for these meals.

The guidelines for shelf stable meals are:

9. Nutrient content of the meal must meet all requirements of the program and be approved by the AAA or nutrition program qualified dietitian.
10. Only top-grade, non-perishable foods in intact packages shall be included.
11. Cans are to be easy open, with pull tabs whenever possible.
12. All individual foods packages are to be labeled with expiration dates. All foods must be shelf stable. (Note: Meals with a multiple year shelf life, if stored properly, can be retained from one year to another and may help contain costs.)
13. Fruit and vegetable juices are to be 100 percent pure juices.
14. Dried fruit must be packed in an airtight container.
15. When applicable, easy-to-read preparation instructions should be included.

- O. Holiday Meals:** Nutrition programs are required to develop and have available written procedures that address congregate meal site holiday closures including, but not limited to, the following items:
1. **Holiday closing schedule** - The State of Florida recognizes the following holidays for employees: New Year's Day, Martin Luther King, Jr. Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day, Friday after Thanksgiving Day, and Christmas Day. Providers must receive prior written authorization from the AAA for any additional planned closing dates. Also, providers must ensure that planned holiday closings do not result in the closure of a congregate meal site for more than four (4) consecutive day meal service days, which may or may not include weekend days.,
  2. **Requirements for provision of meals** - The provision of congregate services during site closures must be addressed in the AAA/provider contract. Providers must meet all requirements of the program and be approved by the AAA or nutrition program qualified dietitian.
  3. **Reporting of meals** - Nutrition programs must meet all requirements for reporting of service units

#### **FOOD PREPARATION AND SAFETY STANDARDS:**

- A. Regulations:** In all phases of the food service operation (storage, preparation, service, and delivery of meals), nutrition programs shall adhere to the state and local fire, health, sanitation, and safety regulations applicable to the types of food preparation and meal-delivery systems used by the program. State regulations to the hygienic preparation and serving of food are stated in the Chapter 64E-11, Food Hygiene, F.A.C. (<http://fac.dos.state.fl.us/>). F.A.C. 64E-11 is referenced as the guidelines for all food handling referenced in the "Food Preparation and Safety Standards" section.

If applicable, the current food permits and/or inspection report, issued by the Department of Health or the Department of Business and Professional Regulation shall be posted or on file.

- B. Sanitation Program:** All Title III central kitchens and vendors must maintain a written, formal sanitation program that meets or exceeds the minimum requirements of state, federal, municipal, or other agencies authorized to inspect or accredit the food service operation.
- C. Food Handling, Preparation and Service:** All staff working in the preparation of food must be under the supervision of a Certified Food Protection Manager (see Planning for Nutrition Services, Part C.) Food shall be prepared, plated, and transported with the least possible manual contact, with suitable utensils, and on surfaces that, prior to use, have been cleaned, rinsed, and sanitized to prevent cross contamination.

- E. Safety:** Material Safety Data Sheets (MSDS) must be readily available on all chemicals used by the nutrition program. Employees must be informed about potentially dangerous chemicals used in the workplace and how to safely use them (<http://www.msdssearch.com>). Toxic materials, such as cleaners and sanitizers, shall be maintained in the original container or transferred to a clearly labeled appropriate container. Toxic materials must be stored separate from food, food equipment or single-service articles. Sanitizers, detergents, or other cleaning compounds shall be stored separately from insecticides, rodenticides, and other poisonous or toxic materials using methods such as different storage cabinets or separate areas of a room. Ref. Occupation Safety & Health Administration (OSHA) 1910.1200(g).

- G. Food Palatability:** All foods must be prepared and served in a manner to preserve optimum flavor and appearance, while retaining nutrients and food value.
- H. Portion Control:** Nutrition programs must use standardized portion control procedures and equipment to ensure that each served meal is uniform and to reduce plate waste.
- I. Potentially Hazardous Foods:** Potentially hazardous food is any food or food ingredient, natural or synthetic, which requires temperature control because it is in a form capable of supporting the rapid and progressive growth of infectious toxigenic microorganisms. Potentially hazardous foods that may cause foodborne illness include, but are not limited to:
1. Any food that consists in whole or in part of milk or milk products, shell eggs, beef, poultry, pork, lamb, fish, shellfish, tofu, soy protein foods, cooked rice, beans, potatoes, or other heat-treated plant foods;

- a. Potentially hazardous foods requiring refrigeration after preparation, such as, chicken salad, , tuna salad, potato salad, or other mixed foods containing potentially hazardous ingredients or dressings shall be prepared from chilled products with a minimum of manual contact and shall be rapidly cooled to an internal temperature of 41° F. or below within four hours.

#### **K. Holding temperature requirements:**

- 1. Hot-holding temperatures for all hot foods are 140° F. or above.
- 2. Cold-holding temperatures for all cold foods are 41° F. or below.

- 3. Temperature(s) of each potentially hazardous menu items must be taken:
  - a. When the food is received by the nutrition site;
  - b. If there is more than 30 minutes between when the food is received at the meal site and when it is served, then a time and a temperature of each food item must be documented again at the time the meal is served; and
  - c. If a nutrition provider prepares the meal on site, then temperature must be taken and recorded when the food is leaving the production area.

Food grade probe-type thermometers must be used; other thermometers such as infrared thermometers, which do not insert into food cannot be used to take food temperatures. Thermometers must be correctly calibrated at least weekly, to ensure accuracy. Thermometers must be clean and sanitized between uses.

### Nutrition Program Policies

#### N. Hazard Analysis Critical Control Point:

1. Hazard Analysis Critical Control Point (HACCP) is a proactive, comprehensive, science-based food safety system that allows operators to continuously monitor their establishments and reduce the risk of foodborne illness. The Florida Administrative Code does not currently require HACCP plans; however, nutrition programs that prepare their meals are encouraged to incorporate them into their operations to improve food safety at all levels of food service.
2. A HACCP Plan involves seven principles:
  - a. **Analyze hazards:** Potential hazards associated with a food, and measures to control those hazards, are identified. The hazard could be biological (i.e. microbe,) chemical (i.e. toxin,) or physical (i.e. ground glass or metal fragments).
  - b. **Identify critical control points:** These are points in a food's production at which the potential hazard can be controlled or eliminated from its raw state, through processing and shipping, to consumption by the client. Examples include cooking, cooling, packaging, and metal detection.
  - c. **Establish preventive measures with critical limits, for each control point:** For example, for a cooked food, this might include setting the minimum cooking temperature and time required to ensure the elimination of any harmful microbes.
  - d. **Establish procedures to monitor the critical control points:** Such procedures might include determining how and by whom cooking time and temperature should be monitored.
  - e. **Establish corrective actions** to be taken when monitoring shows that a critical limit has not been met. For example, reprocessing or disposing of food if the minimum cooking temperature is not met.
  - f. **Establish procedures to verify that the system is working properly:** For example, testing time and temperature recording devices to verify that a cooking unit is working properly.

### Section III: Service Requirements

### Nutrition Program Policies

- g. Establish effective record keeping documenting the HACCP system:** This would include records of hazards and their control methods, the monitoring of safety requirements, and action taken to correct potential problems. Each of these principles must be backed by sound scientific knowledge. For example, published microbiological studies on time and temperature factors for controlling foodborne pathogens.

**NOTE:** A HACCP principles guide for operators of food service is available at <http://www.fda.gov/Food/GuidanceRegulation/HACCP/ucm2006801.htm>

- O. Food Service Employees/Volunteers:** All food preparation staff must work under the supervision of a Certified Food Protection Manager who ensures the application of hygienic techniques and practices in food preparation and service. ## MENU SUBSTITUTION POLICY & PROCEDURES

**POLICY:** All meals served must meet the Dietary Guidelines for Americans of 1/3 RDA and comply with the requirements for Age 70+ female Dietary Reference Intake/Adequate Intakes (DRI's/AIs). The menu substitution items will be in accord with guidelines documented in section 4-9, section E, Nutrition program polices in the Department of Elder Affairs program and services manual.

**PURPOSE:** To outline the procedures necessary to ensure that all meals served comply with DOEA nutritional guidelines.

### PROCEDURES:

1. Menu substitutions must be from the same food group and must provide an equivalent nutritional value.
2. The *Menu Substitution Guidelines* (revised 9/2014), the pre-approved substitution list developed by the AAA's dietitian, is to be used in emergencies when contracted menu items are not available.
3. In the event that a menu item is not available and must be substituted, the pre-approved substitution list developed by the AAA's dietitian, *Substitution Guidelines* (revised 9/2014), will be used by the caterer to choose a replacement for that food item on the menu. The substitution will be documented on the CMS Senior Center's Substitution Log.
  - If the replacement food item is not on the pre-approved substitution list, the caterer or the CMS Senior Center must obtain approval from a licensed dietician prior to making a substitution. This action must be documented on the Substitution Log.
    - If the dietitian is not available, the CMS Senior Center's Project Director or caterer's staff will make the best choice available using the *Substitution Guidelines* and document this action on the Substitution Log.
5. Documentation of all menu substitutions will be kept on file for monitoring purposes. The documentation will include the date of substitution, the original menu item, the substitution made, the reason for the substitution and the signature of the employee authorizing the substitution. Copies of the Substitution Logs must be kept on file for at least two years and submitted quarterly to the Alliance's Contract Manager for review.
6. To finalize this procedure, a CMS Senior Center's staff member will document completion of any corrective action on the Substitution Log.
7. The volume of substitutions made by the caterer must be justified by the reasons provided. Substitutions should be kept to a minimal, with less than 5 per month.

## MENU SUBSTITUTION GUIDELINES:

The Dietary Guideline Meal pattern for one meal should consist of:

Food Group	Servings/Meal
Bread/Grains	1.7 servings: (1 cup (cooked) pasta or rice, 2 cups cereal, 2 slices bread (1 ounce each))
Vegetable	1.5 servings: 3/4 cup cooked or 1-1/2 cups raw equivalent measure (may serve an additional fruit instead of a vegetable)
Fruit	1 serving: 1/2 cup (4 ounces) or equivalent measure
Milk or Alternate	1 serving: 1 cup (8 ounces) or equivalent measure
Meat or Alternate	1.7 serving: 2 ounce edible portion or equivalent measure
Fat	1 serving: 1 teaspoon or equivalent measure is optional
Dessert	Optional
Optional Beverages: Water, coffee, tea, decaffeinated beverages, fruit juices.	8 ounces, minimum, according to seasonal preferences

**Avoid substitutions, but in case of emergency**, here are guidelines if menu items are not available. Consult your RD for further clarification. Choose foods in like Food Groups – substitute a vegetable for a vegetable, a fruit for a fruit, a meat for a meat, etc. Menu substitutions should be minimal, but are allowed under the following conditions:

1. Menu substitutions must be from the same food group and sub-group and provide equivalent nutritional value. For example, a fruit high in Vitamin C must be substituted with another fruit high in Vitamin C; a dark green vegetable should be substituted with another dark green vegetable.
2. All substitutions must be documented. Keep documentation on file and on-site for monitoring purposes. The Substitution Log must include the date of substitution, the original menu item, the substitution made, the reason for the substitution and the signature of the employee noting the substitution. Finally, the volume and frequency of substitutions must be justified by the reasons provided and must occur less than 5 times/month.

**Below is a pre-approved list of foods that can be used to determine appropriate food substitutions in the event of an emergency. If a food is not on the list, or if clarification is required, the program's Registered Dietitian should be contacted. If the Registered Dietitian is not available, the substitution must be properly documented on the Substitution Log.**

The purpose of this form is to assist the Alliance's dietician in reviewing the menus approved by the Provider's dietician. This attestation should include discussions and steps the RD has taken with the caterer to closely follow the Dietary Guidelines.

The dietician who developed the nutrient analysis must complete **Section I** of this attestation, even if it's the Provider's caterer that developed the nutrient analysis. **Section II** must be completed by the Provider's RD only. Each page of the menu must be signed by the Provider's RD ONLY.

**SECTION I**

- Dietitian's comments:

As requested, please refer to the attached page for a detailed list of any discrepancies found in the nutrient analysis. Note that it is very difficult to achieve 100% accuracy in nutrient analysis and that this is only an estimate of the actual nutrient composition of the meals served to seniors. When nutrients were not met to 100% of DRI's they are still close to the target (see attached). Low sodium items selected when possible.

**Instructions:**

The purpose of this form is to assist the Alliance's dietician in reviewing the menus approved by the Provider's dietician. This attestation should include discussions and steps the RD has taken with the caterer to closely follow the Dietary Guidelines.

The dietician who developed the nutrient analysis must complete **Section I** of this attestation, even if it's the Provider's caterer that developed the nutrient analysis. **Section II** must be completed by the Provider's RD only. Each page of the menu must be signed by the Provider's RD ONLY.

**SECTION I**

I attest that the attached menus have been analyzed with computer software programming using Nutritionist Pro (the name of the software). These menus meet DOEA's Computer-Assisted Menu Development requirements with the following specifics -

- Menus provide 33 1/3% of the Dietary Reference Intakes and approximately 600 calories per meal using the reference intakes for Age 70+ Females
- Analysis includes: Calories, Protein, Fat, Fiber, Calcium, Zinc, Sodium, Potassium, Magnesium, Vitamins B6, B12, C, and A
- Adequate amounts are provided daily of Calories, Protein, Fat, Fiber, Calcium, Vitamin B6 and Vitamin C
- Vitamins A and B12, Zinc, Magnesium, Sodium and Potassium are averaged over one week; however, no individual meal exceeds 1000 mg of Sodium
- These menus comply with the current Dietary Guidelines for Americans. The guidelines can be found at <http://www.health.gov/DietaryGuidelines/>

Miami Springs Congregate Menu B Cycle 2 effective July 19, 2021 - January 16, 2022  
Miami Springs Homebound Menu B Cycle 2 effective July 19, 2021 - January 16, 2022

- Dietitian's comments:

As requested, please refer to the attached page for a detailed list of any discrepancies found in the nutrient analysis. Note that it is very difficult to achieve 100% accuracy in nutrient analysis and that this is only an estimate of the actual nutrient composition of the meals served to seniors. When nutrients were not met to 100% of DRI's they are still close to the target (see attached). Low sodium items selected when possible.

Captain Deal,

Major Police Supply is pleased to provide you with this quote for the equipment and construction required to complete these 2 sites on your ALPR schedule.

Key points about PIPS Neology in the ALPR market:

- For more than 25 years, PIPS has **only** focused on Automatic License Plate Recognition technologies.
- As an Original Equipment Manufacturer, PIPS designs, manufactures, and develops their own hardware and software – we control the quality and support of our products from start to finish.
- PIPS offers an ALPR “back-end” analysis software package (BOSS) that provides data-mining of “historic” license plate information obtained and stored from all deployed mobile (and fixed) systems within your department.
- PIPS has two patents:
  - **PlateFinder** – Identifies license plates based on reflective properties and physical size of plates, which reduces false triggers (mailboxes, picket fences, street signs, etc.).
  - **TripleFlash** – Varies flash, shutter and gain settings to capture multiple images per vehicle, ensuring a quality image over a wide range of ambient and environmental conditions.

# AGENDA MEMORANDUM

**Meeting Date:** 06/28/2021

**To:** The Honorable Mayor and Members of the City Council

**From:** William Alonso, City Manager

**Subject:** “Together We Can” Medley monument

---

At the April 26, 2021 Council meeting, Barbara Sanchez, President and Founder of the Crime Prevention Alliance of Florida, made a presentation on the monument being place in Medley to honor Senior Citizens. Ms. Sanchez asked Council at that meeting if the city would come up with a list of names the city would like to include in this memorial. Staff has been working on this list of Seniors we felt would be worthy of such an honor and here are the names we have come up with:

Paul Mayhew  
Wade Smith  
Jean Ansbaugh  
Lisbeth Toro  
Cristina Robaina  
Joan Hutchings  
Joe Deery  
Margaret Watson  
Betty Dunn  
Joan Cavalier  
Irene Priess  
Jim Caudle  
Betty Bray  
Karen Rosson

Staff requests that Council discuss if there are any other names they want to see included in this monument.

The cost per brick is \$62 so if we do all of the name listed above the total cost is \$868.

87 the City Manager.  
88 (B) Organization of the Board; administrative staff.  
89 (1) The members of the Board shall elect a chairperson and vice-chairperson,

95 Sec. 32-103. – Notice.

- 96 (A) All notices required by this article must be provided by:  
97 (1) Certified mail to the Operator's address listed in the Miami-Dade County Tax  
98 Collector's office for tax notices or to the mailing address listed in the Miami-  
99 Dade County Property Appraiser's database; or  
100 (2) Hand delivery by the sheriff, other law enforcement officer, or process server  
101 to the Operator at the Operator's last known address.  
102 (B) If an attempt to serve notice upon the Operator by hand delivery or certified mail  
103 is unsuccessful, service of the notice may be made by posting notice at the  
104 building, place, or premises where the Public Nuisance is alleged to exist. Such  
105 notice may be posted at least 10 calendar days prior to the hearing on a Public  
106 Nuisance complaint.  
107 (C) Where the Operator is not the owner of the building, place, or premises that is  
108 the subject of a Public Nuisance complaint, notice shall also be provided to the  
109 owner in accordance with this section.  
110 (D) Evidence that an attempt has been made to furnish notice as provided in  
111 subsection (A), together with proof of posting as provided in subsection (B), if  
112 applicable, shall be sufficient to show that the notice requirements of this section  
113 have been met, without regard to whether or not the Operator or owner actually  
114 received such notice.

115 Sec. 32-104. – Public Nuisance Complaints.

116 (A) Written complaints; reports.

117 (1) Any City employee, City officer, or any City resident may file a written  
118 complaint regarding a Public Nuisance with the City Police Department on  
119 a form prescribed by the City. The complaint shall state facts that  
120 reasonably tend to establish the existence of a Public Nuisance.

121 (2) Any police officer that makes an arrest or substantiates an incident or  
122 occurrence of a Public Nuisance shall provide a copy of every such report  
123 to the Chief of Police or designee. The Police Department shall process  
124 all such reports and determine whether the requisite number of  
125 occurrences or violations have taken place to constitute a Public  
126 Nuisance.

127 (3) Upon determining that a Public Nuisance exists, the Police Department  
128 shall mail written notice of such Public Nuisance to the Operator. The  
129 notice shall provide for the Operator to take good faith measures as are  
130 appropriate to abate the Public Nuisance within five days of receipt of the  
131 notice. The Police Department may extend the five days, when requested  
132 in writing by the Operator, to allow the Operator to institute or continue  
133 actions to abate the Public Nuisance, provided the actions are reasonable.  
134 In the event the Operator fails to take reasonable action to abate the  
135 Public Nuisance, the Police Department shall request that the clerk for the  
136 Board schedule a hearing on the Public Nuisance at the next available  
137 hearing date.

138 (B) Processing; review of case.

139 (1) In each case where a determination has been made in accordance with  
140 subsection (a) above, the case shall be processed through the Police  
141 Department and the Chief of Police or designee, in consultation with the  
142 City Attorney, shall determine whether such case is legally sufficient for  
143 presentation to the Board for consideration and disposition as provided  
144 herein.

145 (2) The City Manager, or designee, upon receipt of verification by the Police  
146 Department that all administrative prerequisites have been satisfied shall  
147 direct the clerk for the Board to prepare a case file for the complaint  
148 related to the maintenance of the Public Nuisance.

149 Sec. 32-105. – Notice of hearings; hearing procedures.

150 (A) Notice of hearings.

151 (1) The clerk for the Board shall schedule all hearings and issue notices for  
152 such hearings in accordance with section 32-103 of this article.

153 (2) Written notice of said hearing shall be provided by the clerk to the  
154 Operator and the complainant(s) at least ten calendar days prior to the  
155 scheduled hearing.

156 (3) The Operator shall be responsible for providing the notice of a hearing to  
157 any tenant, lessee, or lessor.

158 (4) The notice of hearing shall include a:

160 (b) Statement of the legal authority and jurisdiction under which the  
161 hearing is to be held;

163 (d) A copy of the subject complaint(s) of the Public Nuisance(s).  
164 (B) Conduct of Hearings.  
165 (1) All hearings of the Board shall be open to the public. The proceedings at  
166 the hearing shall be recorded and may be transcribed at the expense of  
167 the party requesting the transcript.  
168 (2) If proper notice was provided, the hearing may proceed in the absence of  
169 the Operator.  
170 (3) All testimony shall be under oath.  
171 (4) Each case before the Board shall be presented by the City Attorney or  
172 designee. The City shall have the burden of proving the existence of a  
173 Public Nuisance by clear and convincing evidence.  
174 (5) The hearing shall not be conducted in accordance with the formal rules  
175 relating to evidence and witnesses, but fundamental due process shall be  
176 observed and shall govern the proceedings.  
177 (6) The Board may consider any relevant evidence, including evidence of the  
178 general reputation of the place or premises.  
179 (7) Each party shall have the right to call and examine witnesses, to present  
180 evidence and argument on all relevant issues involved in the case, to  
181 conduct cross-examination and submit rebuttal evidence, and to be  
182 represented by counsel.  
183 (8) At the discretion of the Board, the general public may be given an  
184 opportunity to present oral testimony or other evidence. If the Board  
185 considers such evidence, then all parties shall be given an opportunity to  
186 cross-examine, challenge, or rebut it.  
187 (9) Orders of the Board shall be based upon competent and substantial  
188 evidence.  
189 (10) After considering all the evidence presented at the hearing, the  
190 Board may declare the building, place, or premises to be a Public  
191 Nuisance.  
192 (11) Upon finding that a Public Nuisance exists, the Board shall  
193 immediately order one or more of the following:  
194 (a) Discontinuance of the Public Nuisance;  
195 (b) Closing of the building, place, or premises;  
196 (c) Prohibition of the conduct, operation, or maintenance of any business  
197 or activity on the building, place, or premises which is conducive to the  
198 maintenance of the Public Nuisance, which prohibition may include the  
199 suspension of any City business tax receipt issued or renewed  
200 pursuant to Title XI, Chapter 113, entitled "Business Taxes," of the City  
201 Code;  
202 (d) Fines not to exceed \$250.00 for each day that the Board finds that the  
203 Public Nuisance existed and fines not to exceed \$500.00 per day for  
204 recurring Public Nuisances;

- 205                   (e) Any combination of this subsection.  
206           (12)       The total fines imposed pursuant to this section shall not exceed  
207                   \$15,000.  
208           (13)       The Board's order may be recorded in the public records of Miami-  
209                   Dade County, and upon recording shall constitute constructive notice of  
210                   the Public Nuisance to all subsequent purchasers, successors in interest,  
211                   or assigns of the real property that is the subject of the order.  
212           (14)       Orders of the Board shall be posted at the building, place, or  
213                   premises where the Public Nuisance exists, existed or is occurring, and  
214                   shall be sent by certified mail to the Operator and owner of record of such  
215                   building, place, or premises within two business days of the posting.  
216           (15)       An order entered pursuant to this Article shall expire after one year  
217                   or at such earlier time as stated in the order. The Board may retain  
218                   jurisdiction to modify the orders prior to the expiration of the orders where  
219                   just cause is found to exist.

220   Sec. 32-106. – Enforcement of Orders.

- 221           (A) Five business days after the posting of an order issued by the Board, the City  
222                   Police or Code Compliance Division shall be authorized to act upon and  
223                   enforce such order in accordance with this Article.  
224           (B) The City may institute proceedings in a court of competent jurisdiction for  
225                   willful disobedience or failure to comply with any order of the Board.  
226           (C) The City Attorney is authorized to initiate proceedings in any county, state, or  
227                   federal forum for the suspension or revocation of any permits, licenses,  
228                   concessions or contracts held or awarded to the Operator including, but not  
229                   limited to, contracts awarded under section 24.112, Florida Statutes, as  
230                   amended, and including licenses for the sale of beverages issued under  
231                   section 561.19, Florida Statutes, as amended, where the existence of such  
232                   permits, licenses, concessions or contracts is conducive to the maintenance  
233                   of the Public Nuisance.  
234           (D) Nothing contained within this Article prohibits the City from proceeding  
235                   against a Public Nuisance by any other means.

236   Sec. 32-107. – Costs.

237           In the event that the Board declares a place or premises to be a Public Nuisance  
238                   and issues an order pursuant to this Article, the Board shall assess against the owner of  
239                   the building, place, or premises where the Public Nuisance is found to exist the costs,  
240                   including but not limited to reasonable attorneys fees, which the City incurred in the  
241                   investigation, preparation, hearing and presentation of the case. These costs shall be  
242                   due and payable ten calendar days after the written order of the Board has been filed  
243                   with the City's Clerk. A certified copy of an order imposing costs may be recorded in the  
244                   public records and, thereafter, shall constitute a lien against the real property that is the  
245                   subject of the Board's order and provide for the foreclosure of the property subject to  
246                   the lien and the recovery of all costs, including but not limited to reasonable attorney  
247                   fees, associated with the recording of orders and foreclosure. Interest shall accrue on

248 the unpaid costs at the legal rate of interest set forth in section 55.03, Florida Statutes,  
249 as amended.

250 Sec. 32-108. – Appeals.

- 251 (A) An aggrieved party, including the City, may appeal a final order of the Board  
252 to the appellate division of the Circuit Court of the Eleventh Judicial Circuit of  
253 Florida. Such appeal must be filed within 30 days of rendition of the written  
254 order appealed from. An appeal shall not be a hearing de novo, but shall be  
255 limited to appellate review of the record created before the Board.  
256 (B) Unless the findings of the Board are overturned in an appeal pursuant to this  
257 section, all findings of the Board shall be admissible in any proceeding to  
258 collect unpaid costs and penalties.

259 Sec. 32-109. – Rights reserved.

260 This article does not restrict the right of any person, including but not limited to the City,  
261 to proceed under section 60.05, Florida Statutes, as amended, to abate a nuisance.

262 **Section 3. Conflicts.** All Sections or parts of Sections of the Code of  
263 Ordinances, all ordinances or parts of ordinances, and all Resolutions, or parts of  
264 Resolutions, in conflict with this Ordinance are repealed to the extent of such conflict.

265 **Section 4. Severability.** That the provisions of this Ordinance are declared to  
266 be severable and if any section, sentence, clause or phrase of this Ordinance shall for

# AGENDA MEMORANDUM

**Meeting Date:** 6/28/2021

**To:** The Honorable Mayor Maria Puente Mitchell and Members of the City Council

**Via:** William Alonso, City Manager/Fin. Director

**From:** Omar L. Luna, Recreation Director

**Subject:** Recreation Department Fee Schedule

**RECOMMENDATION:**

Recommendation by the Recreation Department that Council Adopt the attached Resolution amending the Recreation Fee Schedule as shown in Exhibit “A” to include fees for rentals of our Miami Springs Adult Community Center.

**DISCUSSION:**

The new Miami Springs Adult Community Center opened its doors to Seniors in our community on February 28, 2021 and since this time, residents have inquired about the rental of spaces within the facility. The opportunities for rental at the new Center include the Rebeca Sosa Dining Hall, with or without the catering kitchen, the outside patio area which faces the Tot Lot playground and the multi-purpose classrooms which could be utilized for learning /training/ meeting spaces or for Art related activities, depending on the type of classroom they wish to rent. These added spaces allow residents several viable options in addition to the ones currently offered at the Recreation and Aquatic Center, while allowing for the City to generate some additional revenues from their rentals. The fees, if adopted, will become effective July 1<sup>st</sup>, 2021.

# AGENDA MEMORANDUM

**Meeting Date:** 6/28/2021

**To:** The Honorable Mayor Maria Puente Mitchell and Members of the City Council

**Via:** William Alonso, City Manager/Fin. Director

**From:** Omar L. Luna, Recreation Director

**Subject:** Aquatic Center Cabanas

**RECOMMENDATION:**

Recommendation by Recreation Department that Council approve an expenditure in an amount not to exceed \$14,400.00, to American Awning Services, Inc, the lowest responsible quote after obtaining three written quotes (attached) to replace the 6 cabana covers at the pool, pursuant to Section §31.11 (C)(2) of the City Code.

**DISCUSSION:**

This project was supposed to be budgeted for next Fiscal Year 21/22. However, due to the fact that the cabanas are an eyesore and we have also lost some revenues due to patrons not renting out cabanas, we would recommend doing this project this fiscal year. We will be selecting a royal blue color that will match the large shade canopy and also that fumbrella by the beach area that have outlasted the white cabana material. This new fabric comes with a five-year warranty. We will keep the structures and only replace the fabric instead of spending \$80-\$100K for a total replacement of structure and fabric. Funding will come from available general fund balance.
