At the meeting of July 20, 2022, Council voted to set the millage rate cap at 6.99. This means that the millage rate can go lower but not higher than 6.9900 when the final millage rate is set at the September 26, 2022 meeting. This represents a 3% reduction in millage. The last time the city's millage rate was lower than 7.000 mills was back in 2012 when the rate was set at 6.7400. The highest millage rate was 8.7440 back in 2003. This Council and Administration are committed to keep working towards lowering millage rates in the future.

Do you check on your elderly neighbors?

We love and care about our elderly community

How often do you check on your parents? How about your elderly neighbors? It's so easy to get caught up in work, errands, and family life that you might not think about how the elderly men and women around you are doing.

How Often Should You Check In?

It doesn't take long for a situation to become dangerous. If you have elderly neighbors, introduce yourself. You don't want to show up at their house and surprise them, but you should let them know who you are, where you live, and that you're happy to help if they ever need it.

If you need a senior's well-being checked, who should you contact?

Here in South Florida, mango season is currently in full swing and guess what? It's National Mango Day. There are mango trees in the backyards of so many of our residents. Today, enjoy a mango!

If you have an abundance of mangos share them with friends, relatives, neighbors and colleagues.

Fun Fact :

Mangoes contain almost 20 different vitamins and minerals, which highly contribute to its status as a superfood.

According to a report, 3/4 cup mango has 50 percent of your daily vitamin C needs, eight percent of your vitamin A, and another eight percent of your daily vitamin B6 requirements.
